

FOR LOVE AND LIFE

APPLE GOODNESS

Exclusive to Equiline Horse Feed, a delicious apple cinnamon flavour stimulates appetite and encourages feed consumption. Both aromatic and tasty, this unique feature can only be found in Equiline products.

The Equiline logo features the word "EQUILINE" in a white, serif, italicized font, set against a dark blue background. Below the text is a red and white curved swoosh.

EQUILINE

EQUILINE MARE & FOAL

Formulated specifically to meet both nutritional needs of a growing horse up to 12 months of age, as well as the broodmare in late gestation and lactation. This pelleted feed ensures optimum growth and development, while reducing the incidence of DOD (Developmental Orthopedic Disease).

PELLETED MARE & FOAL RATION

A completely balanced feed designed to meet the nutritional needs of both mare and foal. Fortified with quality vitamins and minerals for a healthy immune system and favorable development. Milk proteins provide top quality and highly digestible amino acids for muscle growth in the growing foal.

MARE & FOAL

The Equiline logo features the word "EQUILINE" in a white, serif, all-caps font. The letter "E" is stylized with a circular element. The logo is set against a dark blue rectangular background with a red and white curved swoosh underneath.

EQUILINE BROODMARE & YEARLINGS

Formulated specifically to meet the needs of the broodmare in late gestation and lactation, as well as the growing horse. Rich in quality protein (amino acids) and the necessary vitamins and minerals for development, lactation and growth.

EXTRUDED BROODMARE/YEARLING RATION

Increasing digestibility, this extruded feed provides essential nutrients for growth, lactation and gestation. The feed intake is reduced because of the increased nutrient availability of this product.

16% SWEET HORSE FEED

This premium quality sweet feed features a high grain content with increased vitamins and protein sources for growth, lactation and gestation, while the tasty molasses and grain formula encourages consumption.

PELLETED 14% YEARLING CONDITIONER RATION

With enhanced vitamin E and organic selenium, this feed is for horses 12-36 months of age. This ration promotes balanced growth and reduces developmental problems, while providing elevated fat levels for high activity and glossy coats.

BROODMARE & YEARLINGS

EQUILINE FEEDS

Shur-Gain's Equiline® Horse Feed gives your horse the perfect mix: precise nutritional formulation balanced with wholesome, top quality ingredients. Highly digestible fibre sources, such as beet pulp and alfalfa, palatable vegetable oils and top quality grains, are utilized in Equiline® Horse products.

All Equiline® Horse Feeds are enhanced with antioxidants, vitamin E and organic selenium, which reduces cell destruction, improves the immune system and decreases the effects of stress. Selenium is essential for a healthy diet. Since Ontario soils are selenium deficient and inorganic sources are not as absorbent as organic selenium, Equiline® ensures 100% organic selenium in its products.

They also contain a high quality yeast culture, resulting in enhanced fibre digestion and a reduction in lactic acid build-up. This provides more energy for growth, maintenance and other activities. Yeast is also a great source of B vitamins.

You'll find a complete complement of macro and micro minerals along with all the fat and water soluble vitamins (including biotin) needed to meet or exceed the National Research Council (NRC) requirements for horses in Equiline® Horse Feeds.

GRAINOLA

Combining the benefits of an assortment of pelleted products with a textured ration – Grainola is a very palatable mix. Pellets provide protein, essential vitamins and minerals, while the unique cubits and nuggets provide highly digestible fibre from beet pulp and alfalfa. Grains, flaxseed and added vegetable fat provide the energy needed for the performance horse.

PELLETED RATION

Every bite is packed full of balanced nutrition. When feeding dust-free pellets, you can be assured that every horse receives their nutrient requirements at every feeding.

EXTRUDED RATION

The special extrusion process means the feed is cooked which improves nutrient digestibility, increases energy availability and reduces digestive upsets. Extruded feed is an excellent choice for growing horses, mares and performance horses.

TEXTURED RATION

Textured feeds provide a balanced ration of protein, energy, vitamins and minerals with the added benefit of a pelleted supplement. Molasses improves the flavour while holding grain and pellets together, providing a high-quality, dust-free feed.

FIBRE NUGGETS

Easy to chew, highly digestible and nutritionally complete, the fibre nugget's large size slows down the rate of consumption for horses that bolt their feed. The unique design breaks apart effortlessly making it easier to chew, while a high roughage level makes it an ideal forage/hay substitute.

THE FEEDS

EQUILINE MAINTENANCE

Designed for less active adult horses, ponies and barren mares, these feeds provide a source of protein, vitamins and minerals, as well as high levels of fibre to maintain a complete and balanced diet.

CARROT BITZ TREATS

A highly digestible, easy to chew, nutritionally complete feed. Increased digestibility means a healthier horse with less feed required. Carrot Bitz is the perfect treat in a dust-free form. Precise nutritional formulation balanced with wholesome, top quality ingredients.

PELLETED ALL-IN-ONE RATION

A nutritionally balanced ration that is ideal as the sole ration for horses unable to eat forage due to poor teeth or respiratory problems. The high roughage level provides quality fibre from alfalfa and beet pulp, promoting hindgut health.

12.5% COOL ENERGY CUBITS

This corn-free feed offers the most natural source of "slow release" energy for the horse from its high fibre ingredients. Its unique cubit form encourages slower consumption of feed, stimulates chewing and increases saliva production to reduce the risk of stomach ulcers.

13% SWEET HORSE FEED

This textured feed provides a complete and balanced diet while offering energy primarily from starch sources. Added molasses makes it a very palatable feed for picky eaters.

PELETED FAT 'N' FIBRE HORSE RATION

This very popular corn-free product provides energy primarily sourced from high quality fibre and fat ingredients. The reduced carbohydrate content is great for horses that cannot eat a high amount of starch or get "hot" on grains. Ideal for improved weight gain.

PELETED SENIOR CARE RATION

Designed for increased nutrient absorption and digestibility, this feed is perfect for the aging horse that would benefit from good quality feed. Formulated with extra B vitamins, vitamin C, and chelated minerals for increased bioavailability in the older digestive system.

PELETED MATURE HORSE RATION

Featuring enhanced vitamin E and organic selenium, the large pellet design of this feed increases chewing and reduces bolting, while beet pulp is an excellent source of fibre.

FIBRE NUGGETS HORSE RATION

A complete feed, incorporated with a high roughage level, while maintaining complete and balanced nutrition. Nuggets can be fed along with hay, or substituted for hay, on the same weight basis. This low calorie feed is ideal for "easy keepers".

MAINTENANCE

The Equiline logo features the word "EQUILINE" in a white, serif, all-caps font. The letter "E" is stylized with a circular element. The logo is set against a dark blue rectangular background. Below the blue rectangle is a red curved line that sweeps from left to right.

EQUILINE®

EQUILINE PERFORMANCE

A horse in training requires more energy to ensure peak performance. Contains elevated levels of magnesium for concrete bone structure and proper muscle function, and elevated vitamin levels for the hard working horse. Formulated with a variety of quality ingredients such as rice bran, soybean oil and beet pulp, Equiline® Performance Feeds help horses meet greater demands.

EXTRUDED HIGH PERFORMANCE RATION

Improving athletic performance, body condition and appearance, this feed provides more energy from fat sources for longer lasting energy, better gut health and a shiny coat. Plus, highly digestible nutrients are delivered quickly to the equine athlete.

XPLOSION PERFORMANCE RATION

Designed to provide controlled energy to your performance horse, when they need it. This dynamic mix features pellets for protein, vitamins and minerals; cubits and nuggets for slow release energy from highly digestible fibre sources; grains as a source of quick energy for extra power; and oil from flaxseed and soybean oil for that endless supply of energy. Contains elevated levels of selenium and sodium to reduce the occurrence of muscle disorders, such as tying up.

ARMOUR PERFORMANCE RATION

Designed to promote a healthy balance in the digestive system, while providing concentrated energy for performance. Its unique formulation of Live Probiotics and highly digestible fibre improves feed digestion. Protects and fosters a stable hindgut environment, creating less risk for colic, acidosis and other digestive disorders. It is designed specifically for performance horses in light to heavy work.

PERFORMANCE

EQUILINE SUPPLEMENTS

Designed for horses that require an extra boost of nutrients to supplement their current forage diet. Three supplements – all providing essential vitamins and minerals, added yeast for increased digestibility, and one providing extra protein and energy – you choose the one that best suits your horse.

BALANCE PELLETED HORSE MINERAL

Contains an assortment of nutritional benefits, including chelated minerals, 100% organic selenium, yeast cultures, elevated biotin levels and alfalfa for palatability. The pelleted form provides a uniform source of nutrition in every portion. Ideal for ponies, easy keepers or horses on reduced diets for weight loss.

EQUILINE EXTRA

An excellent supplemental top dress on the regular daily ration of performance horses, pregnant and lactating mares, as well as horses under stress. Contains increased biotin levels and a chelated zinc source for improved hoof condition, as well as added yeast for improved feed intake and fibre digestion.

SHINE HORSE SUPPLEMENT

Designed to provide extra energy for horses that require additional calories. Feeding Shine in addition to your current feeding program will improve your horse's performance, health, weight gain and make your horse's coat "shine."

ACCELERATOR PLUS RATION BALANCER

Designed to provide essential vitamins, minerals, and amino acids that are commonly deficient in grass or mixed forage diets. An excellent source of omega 3 fatty acids and organic minerals for optimum health. Ideal to feed to all classes of horses consuming a diet exclusively of forage.

WHERE, IN THIS WIDE WORLD,
CAN ANYONE FIND NOBILITY WITHOUT PRIDE,
FRIENDSHIP WITHOUT ENVY,
OR BEAUTY WITHOUT VANITY?

HERE, WHERE GRACE IS LACED WITH MUSCLE,
AND STRENGTH BY GENTLENESS CONFINED.
THEY SERVE WITHOUT SERVILITY.
THEY HAVE FOUGHT WITHOUT ENMITY.

THERE IS NOTHING SO POWERFUL,
NOTHING LESS VIOLENT.
THERE IS NOTHING SO QUICK,
NOTHING MORE PATIENT.

OUR PAST HAS BEEN BORNE ON THEIR BACK,
ALL OUR HISTORY IS THEIR INDUSTRY.
WE ARE THEIR HEIRS,
THEY ARE OUR INHERITANCE.

THE HORSE.
